- Analyzed project requirements and datasets to deliver structured, data-driven solutions within strict time-lines.
- Translated problem statements into analytical workflows and supported decision making through clear insights.
- Collaborated with team members to clarify requirements and communicate analytical findings clearly to support business discussions.

Saiket Systems

January 2026 – February 2026

Data Scientist (Remote)

- Performed data cleaning and exploratory analysis on real-world datasets to identify trends and behavioral patterns.
- Generated structured insights to support data-driven decisions focused on improving user experience and engagement.
- Presented findings in a concise and structured manner for internal review and discussion.

SKILLS

Programming Languages: Python, SQL

Libraries / Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

Tools / Platforms: Jupyter, Git, VS Code

Databases: MySQL, SQLite

PROJECTS

Skill Gap Analyzer

[\[GitHub\]](#)

Python, Pandas, NumPy, Scikit-learn, MySQL

- Developed an analytical system to evaluate resumes and job descriptions, identify skill gaps, and generate role-fit insights and personalized recommendations.
- Delivered the complete workflow from problem understanding to insight delivery to support user-focused decision making.

Gurgaon Real-Estate Analysis Project

[\[GitHub\]](#)

Python, Pandas, Matplotlib, Seaborn, Jupyter

- Analyzed real-estate data to identify pricing trends and key valuation drivers using exploratory analysis.
- Created visual reports to support data-driven business and investment decisions.

Personal Portfolio Website

[\[Live\]](#)

- Designed a professional portfolio website to present projects and achievements in a clear and structured manner.

Lost & Found Web Application

[\[GitHub\]](#)

- Designed a structured information system to help users report and track lost items, improving information accessibility and user experience.

CERTIFICATIONS

- Data Analyst – [OneRoadMap](#)
- SQL Advanced – [HackerRank](#)
- Python – [HackerRank](#)
- Introduction to Machine Learning Concepts – [Microsoft](#)

HONORS & AWARDS

- SIH 2025 – College Level Shortlisted Team
- SIH 2024 – College Level Shortlisted Team
- Solved 200+ problems on LeetCode and HackerRank
- 3rd Position in 12th Standard (School Rank)
- HackerRank 5 Star in Python
- HackerRank 5 Star in Problem Solving
- HackerRank 5 Star in SQL
